> Unaudited Financial Results Half-year Ended September 30, 2019

December 11, 2019

My Dear Shareowners,

I am delighted to share with you yet another stellar performance of Reliance Industries Limited (RIL) for the half year ended September 30, 2019.

RIL delivered a robust consolidated financial performance for the first half of FY2019-20. Increase in earnings was led by the accelerated growth from the consumer businesses which offset the decline in contribution of our Oil to Chemicals (O2C) businesses.

RIL's consumer businesses are on a continued growth trend guided by the passion to provide best value to our customers. Reliance Jio achieved the 350 million subscriber mark and has now become the second largest single-country operator globally. Reliance Jio has truly democratized digitalization in India with data consumption in excess of 4 Exabyte per month on its network. Reliance Retail delivered record revenue and earnings despite a broad-based consumption slowdown, surpassing ₹ 75,000 crore revenue milestone for the first half of FY2019-20.

There have been several key transformational developments during the period and I would like to share them with you.

As Reliance continues on the path of strengthening its businesses, your company has taken several strategic initiatives which herald the evolution of Reliance into New Reliance.

Saudi Aramco and RIL signed a non-binding Letter of Intent ("LOI") regarding a proposed investment in the Oil to Chemicals (O2C) division comprising the Refining, Petrochemicals and fuels marketing businesses of RIL. Saudi Aramco's potential 20% stake is based upon an Enterprise Value of US\$ 75 billion for the O2C division. We have a long-standing crude oil relationship with Saudi Aramco and we would be happy to see this further strengthened with this investment. The partnership will leverage strengths in feedstock integration, technology, project execution and product innovation.

We are delighted to expand our partnership with BP, one of the global leaders in the fuel-retailing sector. This partnership is a testimony to the strong ties between BP and Reliance. Our robust partnership in developing gas resources in India has now expanded to fuel retailing and aviation fuels. RIL and BP's partnership will incorporate and build on RIL's current fuel retailing network of above 1,400 sites across India, which both the partners aim to grow rapidly to up to 5,500 sites over the next five years.

Ouralliance with Microsoft will embark on a unique, comprehensive, long-term strategic relationship aimed at accelerating the digital transformation of the Indian economy and society. Our longterm partnership combines the power of Microsoft's cloud-based solutions- including Azure, Azure AI and Office 365 – with Jio's connectivity and digital solutions.

Further, Brookfield along with co-investors will invest ₹ 25,215 crore in the units of Tower InvIT. This is the single largest foreign investment in an Indian infrastructure vehicle and is a testimony from one of the largest infrastructure players globally, for the quality of assets created by Jio.

Partnering with global leaders across all our businesses brings expertise, technology, products, brands and capital for growth.

Highlights of the half-year's performance (consolidated)

- Revenue increased by 13% to ₹ 336,810 crore (\$ 47.5 billion)
- PBDIT increased by 12.3% to ₹ 50,306 crore (\$ 7.1 billion)
- Cash Profit increased by 9.8% to ₹ 34,489 crore (\$ 4.9 billion)
- Net Profit increased by 12.6% to ₹ 21,366 crore (\$ 3.0 billion)
- Gross Refining Margins (GRM) of \$ 8.8/bbl for the half year ended September 30, 2019

For the half year ended September 30, 2019, RIL achieved a turnover of ₹ 336,810 crore (\$ 47.5 billion), an increase of 13% on a Y-o-Y basis. The increase in revenue was largely due to accelerated growth in consumer businesses. Revenues in our O2C businesses were mainly impacted by softer commodity prices. PBDIT registered a growth of 12.3% and was at ₹ 50,306 crore (\$ 7.1 billion) for the half-year period. On a half-yearly basis, RIL achieved its highest ever net profit of ₹ 21,366 crore (\$ 3.0 billion), an increase of 12.6% on Y-o-Y basis. As our consumer businesses scale up, they are contributing more to our consolidated earnings. Consolidated segment EBITDA stood at ₹ 45,182 crore (\$ 6.4 billion) for the first half, with 32.3% contribution from Jio and Retail together.

For 1H FY 2019-20, Refining and Marketing segment revenues increased by 2.3% Y-o-Y to ₹ 198,950 crore (\$ 28.1 billion), while EBITDA was down by 11.6% Y-o-Y at ₹ 10,811 crore (\$ 1.5 billion). RIL was able to deliver a resilient performance amidst challenging geopolitical environment, slower demand growth and unfavourable crude sourcing environment.

Weakness in key product deltas and tighter crude markets for heavy crudes resulted in the decline in RIL's gross refining margins (GRM) for the first half to \$ 8.8/bbl as compared to \$ 9.9/bbl in the corresponding period of the previous year. RIL's premium over regional benchmark (Singapore margin) was at \$3.8/bbl during 1H FY 2019-20. Product cracks, however, rebounded in the second quarter led by strong light and middle distillate products. With change in marine fuel specifications under IMO 2020, we are constructive on refining margin environment in the medium term.

RIL processed 34.2 MMT of crude in 1H FY 2019-20. As of September 30, 2019, Reliance operated 1,385 outlets across the country with industry leading throughput per outlet.

During 1H FY 2019-20, revenue from the Petrochemicals segment decreased by 9.4% Y-o-Y to ₹ 76,149 crore (\$ 10.7 billion) with lower price realisations. EBITDA for the period was at ₹ 17,737 crore (\$ 2.5 billion), a decrease of 5.1% on a Y-o-Y basis primarily due to weak petrochemical product margins. There was a significant decline in major product margins such as PE, PX, MEG and PET as a result of new supply, inventory overhang and soft global macro environment. However, EBITDA margin improved 110 bps to 23.3% for the half year, driven by cost optimisation from feed stock flexibility and light-feed cracking, wide product portfolio and deep integration.

The oil and gas business achieved a turnover of ₹ 1,713 crore down 37.8% Y-o-Y. The segment performance however continues to remain impacted by lower volumes due to natural decline resulting in an EBITDA of ₹ 335 crore. Production from the domestic segment was at 23.5 BCFe, down 29.2% Y-o-Y while production volumes from US shale operations declined by 30.1% to 36.7 BCFe.

Three KG D6 projects now under development are expected to bring over 3 TCF of gas resources to production starting next year. The first of the three KG D6 projects under development, the R-Series project, is in execution phase and the first gas from this field is on-schedule and expected by mid-2020.

Reliance Retail, as India's leading retail company, has brought retail revolution to India. The business continues to serve the needs of millions of customers by providing them access to a wide range of quality products and services at compelling value and reaching the length and breadth of the country through an extensive network of physical stores and digital platforms.

Despite slowdown in consumption in first half, Reliance Retail delivered a resilient performance and sustained its strong track record of robust revenue growth and profit improvement. Retail business recorded revenue growth of 36.1% Y-o-Y to ₹ 79,398 crore (\$ 11.2 billion). EBITDA for the retail business increased by 68.2% Y-o-Y to ₹ 4,371 crore (\$ 617 million) and EBITDA margin witnessed a Y-o-Y expansion of 100 bps to 5.5%. As on September 30, 2019, Reliance Retail operated 10,901 stores across 6,700+ towns and cities in India. We added 602 new stores in 1H FY 2019-20. Operational performance saw an improvement largely due to focus on customer centricity, strong like for like sales growth and expansion in Tier 3/Tier 4 markets in India.

Reliance Retail received footfall of 300+ million during this period and currently has a registered customer base of over 108 million. This showcases the significant scale with which Reliance Retail is serving its customers. The robust performance underpinned by sharp operational execution keeps it well poised to deliver consistent, competitive and sustainable growth ahead.

Reliance Brands completed the acquisition of British toy retailer, Hamleys and this acquisition will establish Reliance Retail as a major player in the global toy retail industry.

In our Digital Services business, Jio has now reached 355.2 million subscriber base and has become world's second largest single country mobile operator. In the past one year, Jio has connected 100+ million customers to its network providing them with unmatched offerings at affordable tariffs.

Jio's operating revenue for 1H FY2019-20 was ₹ 24,033 crore (\$ 3.4 billion) and EBITDA was at ₹ 9,852 crore (\$ 1.4 billion), with EBITDA margin at 41%, an increase of 230 bps from corresponding period in the previous year. ARPU for the period was at ₹ 121/sub per month.

Customer engagement on Jio network continues to remain robust with average data consumption per user per month of over 11.5 GB during the period. Jio has witnessed more than 3x increase in voice and data traffic on its network, over the past two years. However, with >750,000 eNodeBs (across 800MHz/ 1800MHz/ 2300MHz bands) deployed on 4G-LTE, Jio continues to be by far the industry leader in terms of network capacity and performance.

There were several milestones achieved by Jio during the 1H FY 2019-20:

- India's largest mobile operator by revenue
- Highest market share in terms of 4G subscriber base and 4G data traffic
- Total wireless data traffic during 1H FY 2019-20 stood at 2,292 crore GB, 62% YoY growth
- Total voice traffic during 1H FY 2019-20 stood at 159,859 crore minutes
- Ranked fastest network by TRAIs MySpeed Analytics App

During the period, Jio launched JioFiber, its fiber to the home service, across 1,600 cities in India. With JioFiber, Jio continues to deliver on its promise of connecting the unconnected, while bringing about transformational changes to Indian homes. Beta trials across more than 0.5 million homes were very successful with monthly data usage in excess of 100GB. We expect fiber to Home and Enterprise services to be key growth and margin drivers over the medium term.

Outstanding debt as on September 30, 2019 was ₹ 2,91,982 crore (\$ 41.2 billion), while cash and cash equivalents were at ₹ 1,34,746 crore (\$ 19 billion). The capital expenditure for the half year ended September 30, 2019 was ₹ 41,722 crore (\$ 5.9 billion).

The Unaudited Financial Results, Unaudited Segment Information for the quarter / half year ended September 30, 2019 and the Unaudited Statement of Assets and Liabilities as at September 30, 2019 of the Company are attached.

I take this opportunity to wish you and your family members a wonderful year ahead.

With Best Wishes, Sincerely,

Mukesh D. Ambani Chairman and Managing Director
