

ELV declaration

This is to inform you that, ELV is end of life of vehicle, when life of vehicle ends, all the parts of vehicles are shredded. As per European regulations (2000/53/EC) after shredding 80% of the material should be recyclable. Hence, the Polyethylene Relene grade JD22010 meets the criteria for ELV.

Products made out of the grade are 100 % recyclable.

The declarations given above are applicable to the material as it leaves the RIL production facilities and does not include any substance subsequently added by the converter or any other agency. As the conditions of usage at the customer's place are beyond the control of RIL, Customers are advised to make their own decision regarding their use of our grade is safe, lawful and suitable for the intended applications.
