

# **Radisys International LLC**

**Financial Statements  
For the year ended 31st December, 2023**

**INDEPENDENT AUDITOR'S REPORT  
TO THE BOARD OF DIRECTORS OF RADISYS INTERNATIONAL LLC****Opinion**

We have audited the accompanying Special Purpose Financial Statements of Radisys International LLC (hereinafter referred to as "the Company") which comprise the Balance Sheet as at December 31, 2023, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information. These Special Purpose Financial Statements have been prepared by the management of Company per the basis of preparation as described therein, solely for the purpose of preparation of the consolidated financial statements of its holding company, Radisys Corporation.

In our opinion and to the best of our information and according to the explanations given to us, the Special Purpose Financial Statements of the Company for the year ended December 31, 2023 are prepared, in all material respects, in accordance with the basis of preparation of the Special Purpose Financial Statements as disclosed therein and accordingly provide a true and fair view of state of affairs of the Company as at December 31, 2023, and its profit/(loss), total comprehensive income/(loss), its cash flows and statement of changes in equity for the year ended on that date.

**Basis for Opinion**

We conducted our audit of these Special Purpose Financial Statements in accordance with the Standards on Auditing ('SAs') issued by Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Special Purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of these Special Purpose Financial Statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Special Purpose Financial Statements.

## **Management's Responsibility for the Special Purpose Financial Statements**

The Management of the Company is responsible with respect to the preparation of the Special Purpose Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive Income, cash flows and statement of changes in equity of the Company in accordance with the basis of preparation of these Special Purpose Financial Statements as described therein.

The Management of the Company is responsible for maintenance of adequate accounting records, for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Special Purpose Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Special Purpose Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate or to cease operations, or has no realistic alternative but to do so.

The Management of the Company are also responsible for overseeing the Company's financial reporting process.

## **Auditor's Responsibility for the audit of the Special Purpose Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Special Purpose Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special Purpose Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Special Purpose Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Special Purpose Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Special Purpose Financial Statements, including the disclosures, and whether these Special Purpose Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Special Purpose Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Special Purpose Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Special Purpose Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### **Restriction on Distribution and Use**

The Special Purpose Financial Statements have been prepared for the limited purpose of preparation of the consolidated financial statements of Radisys Corporation, the holding company of the Company. As a result, the Special Purpose Financial Statements may not be suitable for another purpose. Our report is intended solely for the internal use of the Company and Radisys Corporation.

**Radisys International LLC****Notes to the Financial Statements for the year ended December 31, 2023****1. General Information**

Radisys International LLC (“the Company”) was incorporated on February 3, 1998, in Delaware. The principal office of the Company is situated at 850 New Burton Road, Suite 201, Dover, Kent County, Delaware 19904. The Company is a wholly owned subsidiary of Radisys Corporation.

The Company is a holding company for purposes of the holding the investments in operating subsidiaries. The Company has no operating activities during the year.

**2.1 Basis of Preparation and Presentation**

These special purpose financial statements have been prepared for the limited purpose of preparation of consolidated financial statements of Radisys Corporation using accounting policies as specified hereinafter.

The financial statements have been prepared on the historical cost convention and on accrual basis of accounting except for certain financial instruments that are measured at fair value at the end of each reporting period, as explained in the accounting policies below.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

In addition, for financial reporting purposes, fair value measurement are categorised within the fair value hierarchy into Levels 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

**2.2 Summary of Material Accounting Policies****A. Investment in Subsidiaries**

The Company has accounted for its investments in Subsidiaries at cost less impairment loss (if any).

**B. Impairment of non-financial assets**

Assessment is done at the end of each reporting period as to whether there is any indication that an asset may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an

**Radisys International LLC****Notes to the Financial Statements for the year ended December 31, 2023**

estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Assessment is also done at end of each reporting period as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

**C. Provisions, contingent liabilities and contingent assets**

Provisions are recognised when the Company has a present obligation as a result of past event(s) and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed unless the possibility of outflow of resources is remote. Contingent assets are not recognised but disclosed in the financial statements only where inflow of economic benefit is probable.

**D. Cash and Cash Equivalents**

Cash comprises cash on hand and demand deposits having maturity of three months or less. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

**E. Financial Instruments****i. Financial Assets****a. Initial recognition and measurement**

All financial assets are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular purchase and sale of financial assets are recognised using trade date accounting.

**b. Subsequent measurement****Financial assets carried at amortised cost (AC):**

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**Radisys International LLC****Notes to the Financial Statements for the year ended December 31, 2023**Financial assets at fair value through other comprehensive income (FVTOCI):

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss (FVTPL):

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

## c. Equity instruments

Equity investments are measured at fair value, with value changes recognised in Statement of Profit and Loss, except for those equity investments for which the Company has elected to present the value changes in 'Other Comprehensive Income'.

## d. Impairment of financial assets

The Company assesses impairment based on expected credit loss (ECL) model to the following:

- (a) Financial assets at amortised cost
- (b) Financial assets measured at fair value through Other Comprehensive Income

The Company follows the 'simplified approach' for recognition of impairment loss allowance. The application of the simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, from its initial recognition.

The Company uses historical experience to determine the impairment loss allowance on the portfolio of trade receivables. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analysed.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

**ii. Financial Liabilities**

## a. Initial recognition and measurement

All financial liabilities are recognised initially at fair value and in the case of loans, borrowings and payables, net of directly attributable cost. Fees of

**Radisys International LLC****Notes to the Financial Statements for the year ended December 31, 2023**

recurring nature are directly recognised in Statement of Profit and Loss as finance cost.

b. Subsequent measurement

Financial liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

**iii. Derecognition of Financial Instrument**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition. On derecognition of a financial asset, the difference between the carrying amount and the consideration received is recognised in the Statement of Profit and Loss. A financial liability (or a part of a financial liability) is derecognised from the Company's balance sheet when the obligation specified in the contract is discharged, cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount and the consideration paid is recognised in the Statement of Profit and Loss.

**iv. Fair value of Financial Instrument**

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis and available quoted market prices. All methods of assessing fair value result in general approximation of value, and such value may vary from actual realization on future dates.

**2.3 Critical accounting judgements and key sources of estimation uncertainty**

In the application of the Company's accounting policies, the management of the Company is required to make judgements, estimates and assumptions about the carrying amount of the assets and liability that are not readily apparent. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

(a) Impairment of non-financial assets

Where indicators of impairment exist for an asset or cash generating unit ("CGU") Management determines the recoverable amount. As part of that determination, in assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, a valuation model is used.
